(1) Ranked by 2016 visitation volume.

(2) Visitation estimates are provided only for countries that have at least 400 respondents.

(3) The I-92/APIS control total for overseas includes all countries except Canada and Mexico.

r = Totals revised due to annual revision by Statistics Canada and Banco de Mexico/Secretaria de Turismo (Mexico) for 2008-2016

* Overseas includes all countries except Canada & Mexico

** Estimate not shown due to sample size fewer than 400, based upon the NTTD statistical policy

Because of the sample limit, countries like the St. Martin, Portugal, Cayman Islands, Turks & Caicos, Ecuador, Denmark, , Haiti, and others had larger visitation estimates than the some of the countries shown here, but because we did not survey at least 400 respondents in 2016, an estimate is not provided.

na = not available

Note: This table shows only one of the 40 travel characteristics data reported on U.S. resident outbound travelers.
